Information Flyer

This flyer should be read in conjunction with the Student Handbook and Course Flyer which lists more details. These can be downloaded at our web site www.professionalpilottraining.com.au

Professional Pilot Training observes that no human was born to fly an aeroplane; this is a modern profession and the skills must be learnt with modern concepts. A person can learn to be an unemployable pilot or they can learn to be a totally professional pilot; a large part of the difference is in the training; at Professional Pilot training we strive to be that difference in your career. If you build a strong foundation your career will flourish. Take the first steps now towards your exciting future in the world of aviation.

Location:

Professional Pilot Training (PPT) conducts all operations from its facilities on the Coffs Harbour Aerodrome. Coffs Harbour is a beautiful coastal city on the Mid North Coast of New South Wales in Australia. Explore this pocket of paradise mid-way between Sydney and Brisbane on the North Coast of NSW. Visit <http://www.coffsc coast.com.au>

Our Business:

Professional Pilot Training has over 12 years' experience and specializes in formal airline cadet training for those persons who use English as a second language. Some of our graduates have continued their career flying from small charters operators up to major Airlines, such as Qantas, Jetstar, Virgin, Air Nuigini and Cathay Pacific on both domestic and international tasks. Our training produces high quality graduates suitable for employment in the general aviation or airline sectors of the aviation industry. PPT does not conduct any other business activity; we are totally focused on pilot training. Visit <http://www.professionalpilottraining.com.au>

A Pathway to a Bachelor of Business at Southern Cross University

Completion of the Commercial Pilots Licence and multi-engine instrument rating qualifies PPT graduates for a grant of one year of advanced standing into the SCU Bachelor of Business Aviation Management. For more information please contact PPT use this link <http://courses.scu.edu.au/courses/bachelor-of-business/2017>

A pilot with a Management / Aviation Degree is a great asset to any aviation operator as it provides them with a broader dimension of employability in different roles.

For the pilots a management degree provides a second career option if they want to diversify later in their life. The SCU Bachelor of Business can be completed via distance education or on campus at Coffs Harbour.

ENROLMENT CUT-OFF DATES

To qualify for a placement on the course, submit your application before:

01/03/20 to qualify for JUL 2020

01/10/20 to qualify for JAN 2021

01/03/21 to qualify for JUL 2021

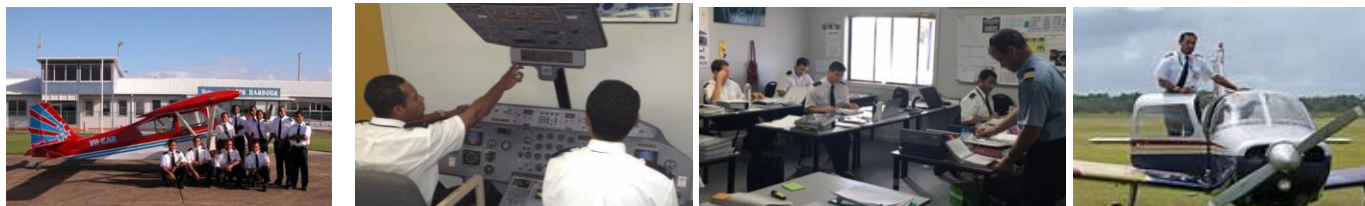

01/10/21 to qualify for JAN 2022

The Facilities:

Classroom Facilities at Coffs Harbour

The facilities include three air conditioned classrooms, a student computer room with internet and email access, a common lunch or lounge room and five staff offices.

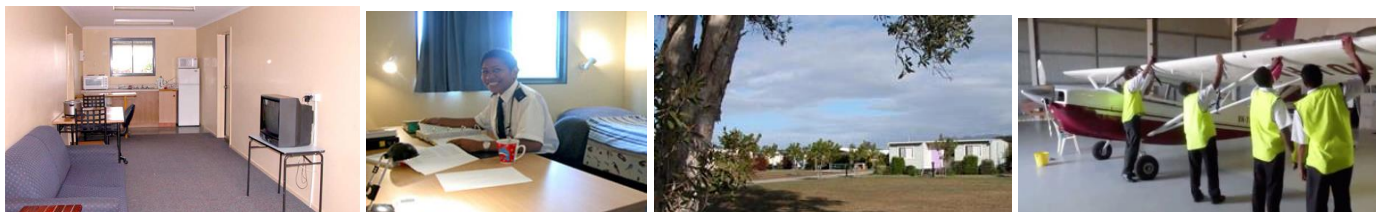

Aeroplanes and Simulators (Synthetic Trainer)

Piper Warrior aeroplanes and a Beechcraft Duchess are used for flying training along with two synthetic flight trainers one of which has a full cockpit environment where one-on-one flight training is conducted. The other is used as part of an “electronic class room” where students flying skills and theory are integrated in the classroom environment.

Accommodation

PPT provides a living environment that is safe and free from social distractions, this is located on the aerodrome adjacent to the training facilities. Professional Pilot Training has a limited number of rooms available as single person accommodation with an ensuite bathroom. The rooms can be rented at \$195 AUD per week including utilities. The accommodation has a small kitchen and students may self - cater or purchase meals from a contracted caterer at a cost of \$350 AUD per week for 3 meals a day 7 days of the week. Arrangements can be made to purchase some meals and self - cater others.

Overseas applicants only

Overseas applicants will either be self- funded or sponsored by a parent or airline. They will need to be able to study a full time course load and support themselves and their children in Australia in order to meet VISA conditions. Overseas students studying in Australia require a student visa from the Australian Department of Immigration and Border Protection.

Sponsoring airlines will usually assist with VISA processing after enrolment is confirmed. For more information visit <http://www.border.gov.au> or the countries' nearest Australian Embassy or Consulate. Students will need a medical examination by an immigration approved doctor before a student visa will be approved. The sponsoring airline is to ensure that all cadets have valid travel documents acceptable to the DIPB and have medical certificates as required by the CASA. The application for the CASA Aviation Reference Number (ARN) is to be made by cadets prior to departure of their home country. Quality education and consumer protection for overseas students is protected via the ESOS framework and they include the Education Services for Overseas Students (ESOS) Act 2000 and the National Code 2007. For more information please access these links:

www.studyinaustralia.gov.au

ESOS framework at <https://internationaleducation.gov.au/>

Recognition of Prior Learning (RPL) and Credit Transfers

For Recognition of Prior Learning (RPL) and Credit Transfers refer to PPTs RPL kits on the website

WHAT NEXT?

For the final assessment students will be tested for the Australian Commercial Pilot Licence – CPL which is issued by the Australian Civil Aviation Safety Authority (CASA) and the AVI50519 Diploma of Aviation (Commercial Pilot Licence - Aeroplane). After passing you will be qualified and appropriately skilled to apply for employment as a commercial pilot.
